

Name: _____

Date: _____

Lighter-than-air Ordering Activity

Cut and stick the dates and events and order them correctly on sheet HOF1a:

December 1783	The Hindenburg Disaster marked the end in the confidence of Airships; 36 lives were lost.
May 1937	The Montgolfier Brothers flew demonstrated the first flight in a hot air balloon.
April 1783	The Montgolfer's Balloon lifted a scared duck and cockerel, and a hay eating sheep.
Today	The first manned hydrogen filled balloon was flown by J Charles.
September 1783	Airships are once again becoming more popular, due to their low fuel costs, and are now filled with helium, which is safer.
